

DINING WITH ALICE

theguardian

"a Mad Hatter's tea party on a grand scale, in which the food slips down along with the riddles, anagrams, tongue-twisters and interventions.....the evening does capture the inanity and insanity of Alice's topsy-turvy world, and hints in this strange, magical setting that the well-ordered empire may actually be tottering on foundations of chaos..... It is quite as batty as it is delightful..... "

STAGE

"a triumph of choreographic and culinary organisation, "

THE TIMES

".....Hilary Westlake's endearingly whimsical theatrical flight of fancy, loosely based on Lewis Carroll's Alice books.....Annabelle Cheetham is deliciously sharp-tongued as the Queen of Hearts, and delightful, too, are Trevor Stuart as the Mad Hatter, Gary Stevens as the White Rabbit and, together, the whole cranky company."
