

**Slips** was the second project that Lumiere & Son developed with student designers from the Wimbledon School of Art Theatre Design Department. As with **Circus Lumiere** all the sets, props and costumes were designed and made within the Theatre and Wardrobe Departments, and the company rehearsed and opened the show in the School theatre.

**First performed in December 1981 at the Wimbledon School of Art and subsequently at the ICA, London. Tour included performances in the UK and Italy.**

**Press comments:**

'Enchanting, confusing and disturbing' **Daily Telegraph.**

'A bizarre and wonderful show . . . the costumes and sets are staggeringly good' **Financial Times.**

'Evocative and pungent' **Time Out.**

'One of the most imaginative companies about . . . they are still exploring the edges of theatre and pushing the barriers outward' **Kaleidoscope, Radio 4.**
